PROFESSIONAL SUMMARY

Full-stack developer with experience building and deploying scalable web applications using JavaScript, React, Next.js, Node.js, Express, PostgreSQL, and AWS cloud services. Skilled in developing responsive frontend interfaces, RESTful APIs, authentication systems, and production-ready full-stack architectures. Background in psychology and client support brings strong communication, analytical thinking, and user-centered problem solving to software development.

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL

Frontend: React, Next.js, Redux Toolkit, React Router, HTML5, CSS3, Tailwind CSS

Backend & Databases: Node.js, Express.js, REST APIs, Socket.io, PostgreSQL, MySQL, MongoDB, Supabase

Cloud & Tools: AWS (EC2, Lambda, S3, RDS, DynamoDB, IAM, CloudWatch), Vercel, Render, Git, GitHub, Vite, Linux/WSL, JWT Authentication, OAuth 2.0, Agile/Scrum

PROJECTS

Sanctuary-Stays | *Next.js, Supabase, Tailwind CSS, OAuth 2.0*

[GitHub](#) | [Live Demo](#)

- Full-stack cabin reservation platform with server-side rendering and OAuth authentication.
- Built end-to-end reservation workflows including booking creation, editing, and cancellation with conflict-aware state handling.
- Integrated Supabase authentication and database services with protected account and reservation routes.
- Developed responsive UI using Tailwind CSS and optimized initial page load performance with Next.js SSR.

Redux News | *React, Redux Toolkit, Node.js, Express, Vite*

[GitHub](#) | [Live Demo](#)

- Full-stack news aggregation platform with decoupled frontend/backend architecture.
- Managed asynchronous global application state using Redux Toolkit and React-Redux.
- Deployed frontend and backend services separately using Vercel and Render with environment-variable-based API configuration.
- Implemented isolated frontend API testing workflows using Mock Service Worker (MSW).

Socket-Chat-API | *React, Socket.io, Node.js, Express*

[GitHub](#) | [Video Demo](#)

- Real-time messaging application featuring WebSocket communication, authentication, and persistent chat storage.
- Developed live chat functionality using Socket.io with synchronized real-time client-server state updates.
- Implemented user registration, login, and persistent message storage using MongoDB.

Envelope-Budgeting-API | *Node.js, Express, PostgreSQL*

[GitHub](#)

- RESTful personal finance API using the envelope budgeting methodology.
- Built full CRUD API with PostgreSQL persistence and transaction tracking.
- Implemented balance validation and cross-envelope fund transfer functionality.
- Structured scalable Express routing architecture with separation of concerns across resources.

CERTIFICATIONS

- **AWS Certified Cloud Practitioner** — Amazon Web Services (2025)
- **IBM Data Engineering Professional Certificate** — Coursera (2024)
- **Frontend & Backend Engineering Certification Program** — Codecademy (2025–2026)
 - Specialized in modern React development (Advanced React, React Router v6, Redux), Next.js, and backend architecture.

EDUCATION

B.A. Psychology — California State University, Fullerton

A.A. Psychology — Los Angeles City College

PROFESSIONAL EXPERIENCE

In-Home Supportive Services (IHSS) Worker *2015–Present*

- Provided daily support and administrative assistance for elderly and disabled clients.
- Managed documentation, scheduling, financial records, and communication with families and case managers.
- Developed strong problem-solving and organizational skills in high-responsibility client environments.
